EDUCATION

M.S. in Computer Science

Tabari University

Sept 2011 – Sept 2013 Babol, Iran

- Overall GPA: 1.28/5
- Thesis Topic: Modeling and Evaluation of Virtual Data Center in Cloud Computing Using Petri net(1.15/5).
- Supervised by Prof. Homayun Motameni
- Transcript Excerpt:
 - Computer System: 1.07/5
 - Theory of Computer Science: 1.30/5
 - Theory of System Design: 1.35/5
 - Advanced Artificial Intelligence: 1.38/5

B.S. in Applied Mathematics

Khayyam University

Sept 2006 – Sept 2010 Mashhad, Iran

- Overall GPA: 1.81/5
- GPA of last two years(Credits:72): 1.73/5
- GPA of last year(Credits:32): 1.24/5
- Transcript Excerpt:
 - Algorithm Design: 1.34/5
 - Graph theory: 1.60/5
 - Compute Architecture: 1.11/5
 - Programming: 1.15/5
 - Discrete Mathematics: 1.00/5
 - Statistic & Probability: 1.07/5
 - Stochastic Process: 1.30/5

A DAY OF MY LIFE

LIFE PHILOSOPHY

“You must be the change you wish to see in the world.”

MOST PROUD OF

- Courage I had**
I will become a great scientist, The future belongs to those who believe in the beauty of their dreams
- Persistence & Loyalty**
I showed despite the hard moments in Iran, my willingness to learning and publishing science
- Skill's Growth**
In recent years, I have paid a lot of attention to scientific and research skill development

STRENGTHS

- Hard-working
- Persuasive
- Team working
- motivator

INTERESTS

- Computer Network
- Network Security
- Cloud Computing
- Networking
- Infrastructure Security
- Formal Method
- Machine Learning
- Time Series Analysis
- Prediction Method

LANGUAGES

- English
- Persian
- Arabic
- German

HOBBIES

- Spinning
- Hiking
- Swimming
- Music
- Reading
- Traveling
- Animal Care

EXPERIENCE

Co-Owner & CEO

Daneshyar (Knowledgebase Company)

📅 July 2016 – Ongoing 📍 Mashhad, Iran

- Designing and implementing computer network security for support and durability of under web service
- Rendering consultation for making business smart and analyzing the warehouse data of chain and hyper stores in order to profitability and increase the customer satisfaction
- Rendering consultation in the field of information technology, data analysis, monitoring, and identifying the loyal customers in order to provide them with more services
- Rendering consultation for improvement of the safety of data centers of the organization and increasing their performance as well as preventing inaccessibility of the data

Software Engineer & Researcher

Danesh Gostar Pargar

📅 Jan 2014 – Ongoing 📍 Tehran, Iran

She is researcher for Pargar Danesh Gostar Co, a company that conducts research in various fields of engineering and technology. In those roles, she is focused on software engineering, artificial intelligence and distributed system research projects. Also, she is mentoring undergraduate and graduate students to complete modeling and data mining projects with some of professional softwares and teaching courses such as Machine Learning, Data Mining, Formal Method and Statistical Modeling Methods to graduate

PROJECTS

Establishment and assessment of a comprehensive database for training schedule on the cloud

Amirkabir University of Technology

📅 2014 📍 Tehran, Iran

- A study project, supervised by Prof. Akbari.
- I looked at the possibility to use MongoDB in cloud, e.g. on a campus.

Trust services-oriented multi-objects workflow scheduling model for cloud computing using evolutionary algorithm

University of Tabriz

📅 2015 📍 Tabriz, Iran

Study of master-slave parallel approach for genetic-fuzzy data mining

University of Sistan & Baluchestan

📅 2015 📍 Zabol, Iran

The evaluation of Lean IT level in organizations with Fuzzy approach

Shahid Beheshti University

📅 2016 📍 Tehran, Iran

ACTIVITIES

Consistent membership

Iranian society of machine vision and image processing(ismvip)

📅 2013 – 2016 📍 Tehran, Iran

Active membership

Young Researchers and Elite Club

📅 2017 – Ongoing 📍 Mashhad, Iran

Referee/Reviewer

Open Civil Engineering Journal

📅 2017 – Ongoing 📍 United Arab Emirates

GIVING TALK

ICNMO 2012

📅 Amol, Iran 📍 2012

Talk on modeling the security of virtual machines in the cloud based on Formal method

OPERATING SYSTEM

Linux(ubuntu)
Windows
Linux(Kali)

PROGRAMMING

Python
Matlab
C/C++
Java

SOFTWARE

CloudSim
NS2/NS3
CPN tools
Weka
Rapidminer

WEB

PHP
CSS
HTML5

DATA BASE

My Sql
Sql Server
MongoDB

PUBLICATIONS

Journal Articles

- NikafshanRad, Hima, Amir AminShokravi, et al. (2017). "The potential application of particle swarm optimization algorithm for forecasting the air-overpressure induced by mine blasting". In: *Engineering with Computers*, pp. 1–9.
- NikafshanRad, Hima, Mahdi Hasanipanah, et al. (2017). "Developing a least squares support vector machine for estimating the blast-induced flyrock". In: *Engineering with Computers*, pp. 1–9.
- NikafshanRad, Hima, Azam Shahnazar, et al. (2017). "A new developed approach for the prediction of ground vibration using a hybrid PSO-optimized ANFIS-based model". In: *Environmental Earth Sciences* 76 (15), p. 527.
- NikafshanRad, Hima, Zakaria Jalali, and Hossein Jalalifar (2015). "Prediction of rock mass rating system based on continuous functions using Chaos-ANFIS model". In: *International Journal of Rock Mechanics and Mining Sciences* 73, pp. 1–9.

Conference Proceedings

- NikafshanRad, Hima and Zakaria jalali (2014). "Estimate geomechanical rock mass classification system (RMRb) based on continuous rating using ANFIS-FCM(Persian)". In: *5th Iranian Mining Engineering Conference*.
- NikafshanRad, Hima, Gholamreza Abdollah-Zade, et al. (2013). "Modeling and Evaluation of prediction security on risk management cycle, public safety and health using stochastic Petri net(Case Study: Tehran metros site)(Persian)". In: *8th National Congress On Civil Engineerin*.
- NikafshanRad, Hima and Homayun Motameni (2013). "Reduce Data Anomalies Using Manifold Learning". In: *Pattern Recognition and Image Analysis (PRIA)*. IEEE, pp. 1393–1398.
- NikafshanRad, Hima, Homayun Motameni, and Hesam Omranpur (2012). "Modeling the security of virtual machines in the cloud using Petri net(Persian)". In: *International Conference on Nonlinear Modeling and Optimization-ICNMO 2012*. Amol, Iran: ICNMO, pp. 398–407.

Under Process

- NikafshanRad, Hima and Mahdi Hasanipanah (2017). *Prediction Slope Mass Rating based on continuous functions using development recurrent fuzzy neural networks*. Under Review: Springer.
- NikafshanRad, Hima and Zakaria Jalali (2017). *Knowledge discovery approach for improving rock mass rating system based on continuous rating*. Under Review: Elsevier.
- NikafshanRad, Hima and Homayun Motameni (2017). *Formal Specification and Verification of Security in Cloud Computing using Colored Petri Nets and Process Algebra*. Under Review: IEEE.

ACADEMIC EXPERIENCE

Local Computer Networking

Mashhad Azad Uni.

 2017 – 2018

Computer Networks Laboratory

Teacher Assistant

Mashhad Azad Uni.

 2017

Workshop Topic: Implementation of Cloud Computing Infrastructures: CloudSim

REFEREES
